### Current Alerts

There are no current alerts

## **SITUATION SUMMARY**

- SOC / Inland REOC remains activated in support of 2014 Drought.
- A series of low pressure systems is currently forecast to bring periods of significant wet weather to interior northern California as early as Wednesday, and continuing through next weekend.
- No significant Weather Watches or Warnings are in effect.
- Bay Area Rapid Transit (BART) derailment – Concord, Contra Costa County
  - One (1) out-of-service train jumped its tracks and derailed last night on 2/21/14.
  - One driver was on board with no passengers and no injuries have been reported.
  - As of 0820 hours on 2/22/14, BART crews are working on restoring service on the portion of the BART system affected by last night's derailment.
  - There is no estimated time of fix or reopening at this time.
  - Please see Northern California Significant Events slide for additional details.
- Natural Gas Outage Montclair, San Bernardino County
  - Caused by a leak from a water main entering a natural gas line causing service outages for customers near downtown Montclair area.
  - Southern California Gas Company crews have repaired the gas pipeline and are working on reestablishing gas services.
  - As of 0730 hours on 2/22/14, 1,263 customers are still without gas service. There is no estimated time of restoration at this time.
  - Please see Southern California Significant Events slide for additional details.
- Natural Gas Outage - Needles, San Bernardino County
  - As of 0715 hours on 2/22/2014, approximately 200 customers are still without gas service.
  - No emergency management issues have been reported at this time.

# **WEATHER**

## **WEATHER SYNOPSIS BY REGION:**

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

High pressure building over the North Coast region will bring warm temperatures and dry conditions to Northwest California this weekend. A change to a cooler and wetter pattern is expected towards the middle of next week.

#### **San Francisco Weather:**

Unseasonably warm and dry conditions will persist through Tuesday, then a change in the weather pattern will bring cooler temperatures and widespread rainfall to the San Francisco Bay Area region for the latter half of next week.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Dry and mild conditions will persist through Tuesday. A change to a wetter and colder weather pattern as early as Wednesday and continuing through at least next weekend is forecast.

#### **Hanford Weather:**

Dry and mild conditions expected through early next week. A weather system pushing into the region by the middle of next week has the possibility of bringing showers and higher elevation snow.

## **WEATHER SYNOPSIS BY REGION: (Con't)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

An onshore flow will increase tonight and deepen the marine layer and bring a cooling trend through next week with temperatures reaching below what is seasonally normal by Wednesday. A couple of storm systems will arrive next week; one on Wednesday and potentially a more significant storm by next Friday into early next weekend.

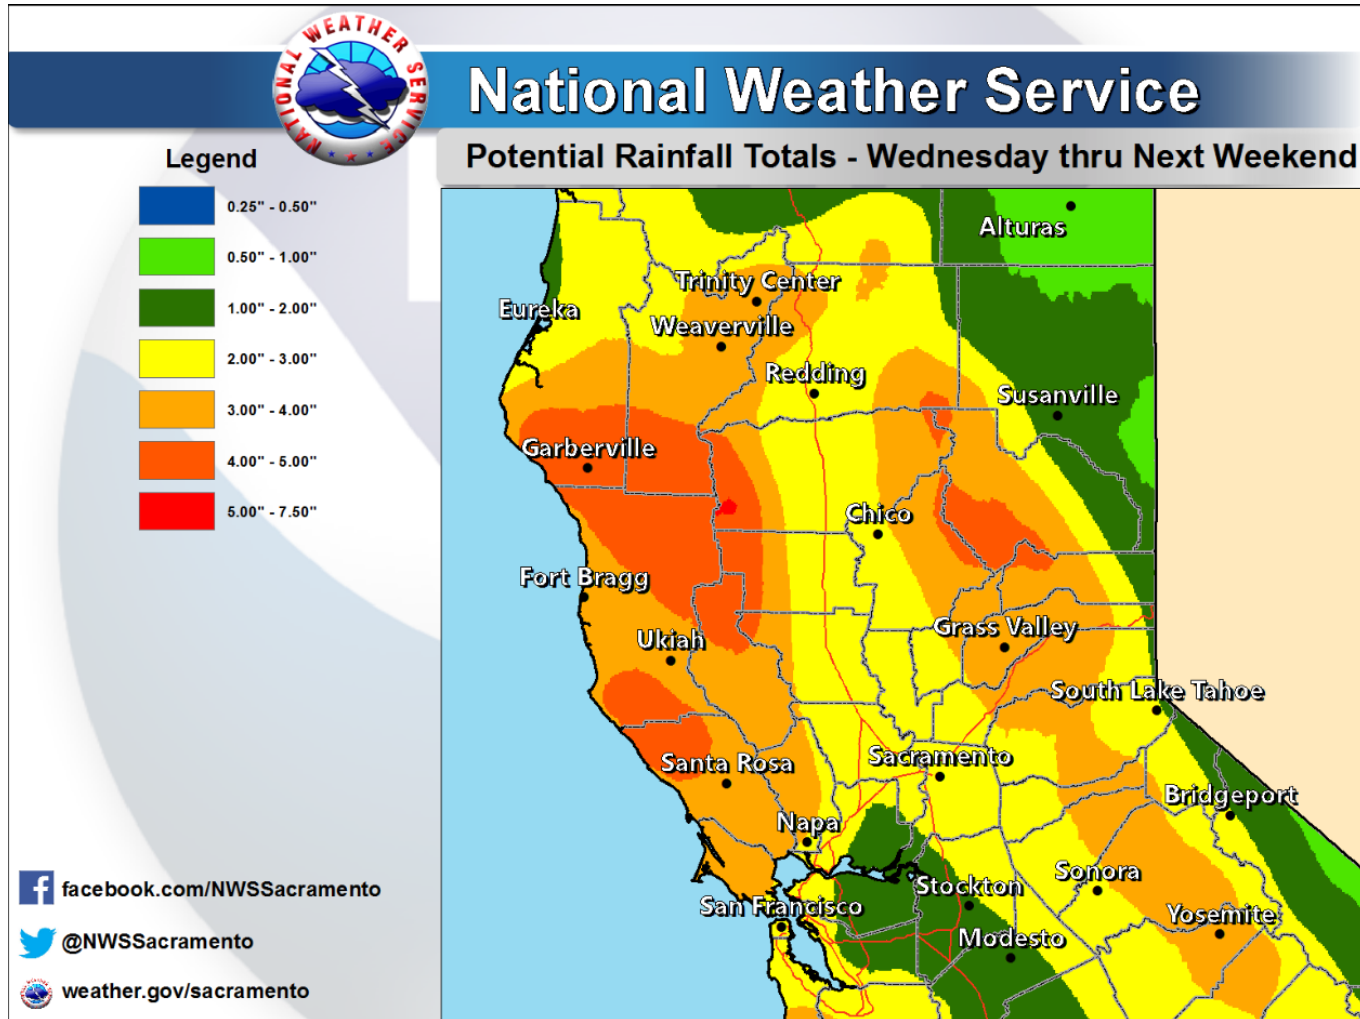

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

The marine layer will deepen into early next week with a weak onshore flow. This will bring a cooling trend with increasing night and morning coastal low clouds and fog. A low pressure system moving through Southern California on Wednesday night and Thursday could bring light to moderate precipitation amounts along and west of the mountains with the strongest west wind gusts in the mountains and deserts. For Friday afternoon into Saturday, a stronger low pressure system could bring moderate to heavy precipitation amounts along and west of the mountains with strongest southwest wind gusts in the mountains and deserts to around 75 mph.

#### **Southeast California Weather:**

Dry and mild weather with occasional high clouds are expected through the middle of next week but big changes are in store for the end of the week. A strong area of low pressure is expected to form over the Eastern Pacific mid to late next week bringing increasing chances for gusty winds, Valley rain with mountain snow and cooler temperatures.

## California - North Area 7 Day Significant Fire Potential

Issued: Friday, Feb 21, 2014

Parameters: None

Predictive Service Area	Thu Feb 20	Fri Feb 21	Sat Feb 22	Sun Feb 23	Mon Feb 24	Tue Feb 25	Wed Feb 26	Thu Feb 27
NC01 - North Coast								
NC02 - Mid Coast								
NC03A - Bay Area-Marine								
NC03B - Diablo/Santa Cruz Mtns								
NC04 - Northwestern Mtns								
NC05 - Sacramento Valley								
NC06 - Northeast CA								
NC07 - Northern Sierra								
NC08 - East Side								

## Legend

### Fuel Dryness

- Moist - Little or no risk for large fires.
- Dry - Low risk of large fires in the absence of a "High Risk" event.
- Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
- Data Unavailable.

## Weather

High pressure will take over the region's weather pattern today through the weekend. Afternoon temperatures are expected to warm by 10 degrees in many areas. There will be a few periods of light NE/Offshore winds through Sunday morning. Conditions are expected to be dry into the middle of next week. Winds then shift to the SW-W late Sunday as the high moves east of the region. This will begin a gradual cooling trend and then set the stage for a return to wet weather by late next week as a series of Pacific storm systems are expected to move onshore across California.

## Fuels/Fire Potential

Fuels in all Predictive Service Areas should remain in the moist category through the 7-day period in spite of some drying under high pressure and light NE/Offshore winds early in the period. Recent rains have begun a new green grass crop in many areas below 3000 ft. For prescribed burning, dispersion conditions will be somewhat variable this week, but trending toward less active dispersion overall this weekend improving early next week. Find more details at:

SC14 - Central Mojave								
SC15 - Upper Deserts								
SC16 - Northern Deserts								

## Legend

### Fuel Dryness

- Moist - Little or no risk for large fires.
- Dry - Low risk of large fires in the absence of a "High Risk" event.
- Very dry - Low/Moderate risk of large fires in the absence of a "High Risk" event.
- Data Unavailable.

## Weather

The ridge of high pressure off the West Coast will weaken this weekend and then shift inland early next week bringing slow cooling and a slight increase in humidity to the region. Temperatures will be in the mid 50s to mid 60s in the mountains, with 70s in the valleys and minimum humidity will be mainly between 15% and 30% away from the coast today. Winds will continue to be light and variable less than 15 mph through Tuesday. A couple of storms will affect the region Wednesday through Saturday. The first storm will bring light to moderate amounts of rainfall Wednesday afternoon through Thursday morning, while the second storm is expected to bring heavy rainfall Friday afternoon through Saturday morning. There will be strong south to west winds of 20 to 40 mph with gusts to 60 mph across the mountain ridges and desert passes with both of these storms. Temperatures will be a little below normal across the region Wednesday through next weekend.

## Fuels/Fire Potential

Light initial attack activity will be possible through early next week due to warm temperatures, low humidity, and very dry fuels. There will be little or no fire activity across the region Wednesday through next weekend due to cool temperatures and high humidity. Heavy rainfall will significantly increase fuel moistures over the region by next weekend. However, the higher fuel moistures look to be short lived as computer models do not show any follow up storms after next weekend.

**Cal OES**  
GOVERNOR'S OFFICE  
OF EMERGENCY SERVICES

## **CAL OES ACTIVATIONS**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily. The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed. The Southern REOCs is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

# **SIGNIFICANT EVENTS / ACTIVITY**

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary: (No Change)**

- The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State for several months. Negative economic impacts will also result. The Governor has established a Drought Task Force to prioritize State actions needed to address these conditions. Governor Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions. The State Operations Center (SOC) is activated to implement objectives in support of the Governor's priorities.
- Many local jurisdictions have enacted water conservation measures. The Office of Emergency Services is in close contact with counties and local officials to monitor the water conditions, agriculture and economy.
- As a result of the drought DWR has informed the customers of the State Water Project (SWP) that deliveries in 2014 will be discontinued if current dry conditions persist. Deliveries to agricultural districts with long-standing water rights in the Sacramento Valley may be cut 50 percent (the maximum permitted by contract) depending upon future snow survey results. Storage in key reservoirs now is lower than at this time in 1977, one of the two previous driest water years on record. While additional winter storms may provide a limited boost to reservoir storage and water deliveries, it would need to rain and snow heavily every other day from now until May to get us back to average annual rain and snowfall. The allocation may change depending on future storm events.

## Cal EOC Incident – 2014 Drought (Con't)

### Current Conditions:

**Recent Precipitation:** Very little precipitation fell in California over the last week. Precipitation totals (in inches) for the 24 hour period February 21 to February 22 are below:

Precipitation Totals (inches)	2/21 – 2/22/2014 24 hour total
Folsom Dam: 0.00"	Pollack Pines: 0.00"
Fresno: 0.00"	Redding: 0.00"
Hetch Hetchy Reservoir: 0.00"	Sacramento: 0.00"
Los Angeles: 0.00"	Shasta Dam: 0.00"
Modesto: 0.00"	Willits: 0.00"
Oroville: 0.00"	

## Cal EOC Incident – 2014 Drought (Con't)

### **Current Conditions:**

While Northern California received its largest rainstorm in 14 months in mid February, the storm had minimal effect on California's drought conditions and reservoirs' water levels remained largely unchanged.

### **Near-term Outlook for Precipitation:**

- A series of low pressure systems is currently forecast to bring periods of significant wet weather to interior northern California as early as Wednesday, and continuing through next weekend.
- The potential for heavy rainfall and potentially heavy snowfall above 4,000 – 6,000 level.
- Potential for urban and small stream flooding from rainfall
- Potential for thunderstorms
- High confidence on wet weather
- Medium confidence on timing and precipitation amounts

\*\* Heavy rain and snow would have to fall throughout California very frequently from now until May to reach average annual rain and snowfall. Even with such precipitation, California would remain in drought conditions, due to low supplies from the two previous dry years.\*\*

**Cal OES Inland Region** - The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday.

## Current Drought Updates:

- 2014 Drought Response Report - Attached ([Update](#))
  - This report will be updated again on 02/24/14 unless the situation warrants.

### Declarations/Resolutions/Proclamations: ([Update](#))

#### **State:**

01/17/14 – January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

# **DROUGHT MEETINGS**

## **Cal OES Inland Region**

The Drought Coordination and Briefing call for Operational Areas, Native American Tribes and the Governor's Office of Emergency Services Inland Region REOC continues to be held at 1100 hours each Monday. Please see below for Drought Meetings from the past 7 days.

- 02/19/14 - Butte County: Paradise had their first Drought Task force meeting on Wednesday evening.
- 02/19/14 - Siskiyou County had a Drought Task force meeting.
- 02/19/14 - San Joaquin Co Task Force Management. The Inland Region Field ESC attended the OA Drought Task Force meeting on Wednesday February 19, 2014.
- 02/18/14 - Butte County - The Inland Region Administrator and Inland staff participated in the Butte County Drought Task Force meeting in Oroville and the CDFA/USDA drought forum in Palo Cedro, in a continuing effort to gather information on the drought emergency and related impacts.
- 02/18/14 - Stanislaus County - The Inland Region Field ESC attended the OA first Drought Task Force meeting on Tuesday February 18, 2014. There was good participation from water agencies, agricultural agencies, cities, and county departments. Information was shared and meetings will continue.
- 02/18/14 - Madera and Stanislaus Counties - Inland Region staff participated in Drought Task Force meetings. Relevant updates have been posted to Cal EOC.

# NORTHERN CALIFORNIA SIGNIFICANT ACTIVITY

- **Bay Area Rapid Transit (BART) derailment – Concord, Contra Costa County (New)**
  - One (1) out-of-service train jumped its tracks and derailed last night on 2/21/14.
  - One driver was on board with no passengers and no injuries have been reported.
  - As of 0820 hours on 2/22/14, BART crews are working on restoring service on the portion of the BART system affected by last night's derailment.
  - BART traffic has been suspended past the Pleasant Hill Station for today, 2/22/14, and BART has established a bus bridge until service is restored.
  - There is no estimated time of fix or reopening at this time.

## **SOUTHERN CALIFORNIA SIGNIFICANT ACTIVITY**

### **Natural Gas Outage Montclair, San Bernardino County 2/21/14 at 1009 hours (New)**

- Caused by a leak from a water main entering a natural gas line causing service outages for customers near downtown Montclair area.
- Southern California Gas Company crews have repaired the gas pipeline and are working on reestablishing gas services.
- As of 0730 hours on 2/22/14, 1,263 customers are still without gas service. There is no estimated time of restoration at this time.
- 23 customers are without water service and resumption of service is expected this morning once water quality testing is complete and no contamination is present.
- There are no reported AFN issues and no requests for State assistance at this time.

### **Natural Gas Outage Needles, San Bernardino County 2/19/14 at 0846 hours (Final)**

- Caused by a valve being turned off.
- City and County are not activated.
- Approximately 4,912 residents were originally affected including the Fort Mojave Indian Tribe.
- Southwest Gas is on-scene bringing each house back on-line.
- No hospital issues; no AFN issues.
- Cal OES Southern Region remains activated at Level 1, Duty officer status.

#### **Update 2/22/2014 at 0715 hours:**

- Approximately 200 customers are still without gas service.
- No emergency management issues have been reported at this time.

# CAL OES OPEN MISSIONS

## **Drought Related Missions**

- **2014-Inland-2185** Tuolumne County does not have a water master or any alternative resources to assist in determining the health of their ground water system. The County is requesting state agency expertise to assist with this determination.

## **New Missions:**

- **2014-LAW-2258** Placer County Sheriff's Department requesting 2 radio kit's (kit of 14 radios), 1 kit of VHF and 1 kit of UHF, to assist and support a mountain rescue training.

## **Ongoing Missions:**

- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

## Ongoing Missions: (Con't)

- **2014-LAW-2069** Solano County Sheriff's Department is requesting California National Guard (CNG) tents to support classes and vendor displays at SAREX 2014 (A joint coordination exercise) scheduled for 9/05-07/2014 in Napa County. Setup of requested resources will begin on 9/04/14 and tear down will occur on 9/08. The exact scope of work will be determined as the planning cycle continues. There will also be a request for communications support which may be a combination of CNG and Cal OES Telecommunications resources. Mission number pulled to allow CNG to begin determining what assets may be available to assist. At this time the specifics of the request are deemed "to be determined" (TBD).
- **2014-LAW-2235** On 2/19/14, Tulare County Sheriff's requested resources to assist in SAR of missing at risk female from San Diego missing since last Sunday. Resources requested include: Helicopter support, cadaver and scent dogs. The Cal OES Law Enforcement Duty Officer is coordinating the resources. [Search operations continue today, 2/22/14, with local and mutual aid resources. No new resource requests have been received.](#)

# **UPCOMING EVENTS, TRAINING, EXERCISES**

## **Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise**

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

## **2014 Golden Guardian**

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Tabletop Exercise - March 5, 2014
- Logistics Rehearsal of Concept Drill - April 2, 2013
- REOC Communications Functional Exercise - March 27, 2014

## **The Tsunami Warning Communications Test**

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt, Mendocino Counties on Wednesday 3/26/14 (between 11:00 and Noon PDT).

- Del Norte County will be asking residents of the community to participate in a full evacuation exercise on March 26<sup>th</sup> between 1100 – 1300 hours PDT.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
